

GAILLARD VINCENT

Full-Stack Developer

With initial training in computer programming and a career as a chef, I have distinguished myself through my **rigor, pedagogical skills, adaptability**, and work ethic. **Simplifying, developping, supporting**, and **solving problems** are all challenges that motivate me. I am also passionate and curious about new technologies.

SKILLS

- **Analytical Skills** : ALVA Logic Test Result : **8/10**
- Understanding the needs and technical level of the audience
- Programming a **FIGMA** widget in **REACT TS**
- Programming **HTTP5, CSS3, C, JavaScript, REACT JS, CMS Wordpress, Tailwind, Angular, PHP, LARAVEL, Livewire, NOSQL databases : Firebase, SQL : MySQL, SQLAlchemy, Node.js, Python, GIT, DOCKER**
- Developed a **CRM** with a backend in Python, MySQL database, and SQLAlchemy; frontend built with HTML Jinja2, CSS, and JavaScript; includes automatic email sending.
- Create a full-stack project : frontend in REACT JS, backend in Python.
https://github.com/vince8574/projet_python (code)
<https://save-food-project.netlify.app/> (online site)
